Glossary

1. **Introduction:**

   This document is used to define terminology specific to the problem domain, explaining terms, which may be unfamiliar to the reader of the use-case descriptions or other project documents. Often, this document can be used as an informal data dictionary, capturing data definitions so that use-case descriptions and other project documents can focus on what the system must do with the information.

2. **Definitions:**

   The glossary contains the working definitions for the key concepts in the MIU scheduler System.

   2.1 **Admin**

   Person who manages user profiles, courses and blocks

   2.2 **Student**

   Person who registers for courses online and views his/her schedule

   2.3 **Faculty**

   Person who teaches courses and students

   2.4 **Register courses**

   The procedure is done by the students at the beginning of their enrollment to the university

   2.5 **View schedule**

   The procedure is done by both faculty and students to view their enrolled courses

   2.6 **Add courses**

   Procedure is done by the faculty to add their areas of specialization

   2.7 **Manage User Profile**

   Procedure is done by the admin to add faculties and students

   2.8 **Manage Courses**

   Procedure is done by the admin to manage courses (create, read, update and delete)

   2.9 **Manage Blocks**

   Procedure is done by the admin to manage blocks (create, read, update and delete)
